REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Rumney School District:

I hereby present my second annual report as Superintendent of the public schools of Rumney.

Instruction

The teaching staff of the district is the same with the exception that Miss Lena French resigned at the Village Grammar School and Miss Eleanor Jones, a three-year Normal Graduate, was appointed to the position.

Modern educational philosophy held almost universally by the leading experts and educators of the country is that "The Child can learn only by his own activity." This principle of self-activity is generally accepted throughout the public schools of the country. This theory is being discussed with teachers in group meetings and is the educational philosophy of the supervision of the district.

Children should be happily engaged in carefully selected learning exercises directed toward definite objectives and I believe that this is the case throughout your schools. The teachers of the district in the group meetings have taken part in valuable professional discussion and all have made worthy contributions to the educational problems of the district.

In addition to the regular marking of teachers standard tests are given from time to time. There are a number of instances of marked improvement of pupils between these tests showing that they may serve as a stimulus to pupil and teacher. Again they indicate where the emphasis should be shifted from time to time. As a result of standard tests, it was definitely determined that as a group, the Village eighth grade had accomplished more than is generally done,

and Latin and Algebra, were introduced. The former gives the opportunity to these children to discover for themselves whether they are adapted for further study of Latin in high school. Over half the class shows promise of pursuing the study of Latin with success and all are doing successful work in Algebra. This will be a decided advantage to these pupils in selecting and following high school courses.

Health

A very successful dental clinic was conducted in June under the supervision of Miss Charlotte Underhill, school nurse, with the financial assistance of Chapters of the Grange. Over 100 children were treated and are presumably living happier and more healthy lives. Although these are a few instances of treatments for tonsils and adenoids there are still apparently nearly 50 instances of these two defects needing medical advice. All the supervision and instruction in the world can never develop a child to his maximum efficiency when actually enduring these physical handicaps.

Property

Since the last report, a sign carrying the name of every school has been put on every building in the district. The district is now 100% protected by school zone signs. The Rumney Depot school has been painted and a modern wire fence installed around it. Electricity was installed in the Village school the funds furnished by the Village Parent Teachers' Association. Electricity has been installed in the Mont View and Quincy schools. The pupils of the Mont View turned over approximately \$20.00 for this purpose and the board paid the balance. Passages to the toilets at the Depot and Village schools have been enclosed during the present school year. Grateful acknowledgement of grading of yard at the Depot school by the Parent-Teachers Association is made here.

Conclusions

It is gratifying to report that the attendance of the district improved this last year and is commendable in general for the permanent residents of the district.

During the year the office records have been thoroughly organized and an accumulative record of every child in the district is on file, instantly available for conference with teacher and parents. The policy of having a conference period when parents can confer with superintendent and teachers is continued this year.

Respectfully submitted,

ALLAN M. McCURDY.
